- **Conference committee sign ups!**

Past President

- You've made it past midterms - congrats! Now for a couple weeks of relative relaxation, before you really hit the home stretch.

    - If you're struggling in some classes, or if midterms didn't go as well as you'd hoped, remember there is still time and opportunity to rebuild your grades before the end of the semester. Keep calm and don't give up!
    - Plenty of resources are available to you as a student at Iowa state to take advantage of them. Especially in the core classes like calc and physics.
  - Seniors - how we feeling about thesis at this point?
    - This is a tough stretch, but know that you're well over halfway to the symposium (for better or for worse) - keep going!
  - We're getting closer to winter break now - it's a great time to **start thinking about internships/summer positions** that you might be interested in.
  - Seniors, Cabinet Members, and everyone else who needs to hear this: It is getting to be a busy time of year; make sure you're keeping up with classes and responsibilities, but also take time for yourself when you can. Balance is important to avoid burnout!
- Feel free to reach out with any questions or if you feel like you're drowning! (402) 380-7109 or Jordan.howell334@gmail.com
